**Course Code: 326771497**

Getting hurt or injured at work is serious. However, learning how to keep safe and healthy at work doesn't have to be. The WHS games will help you integrate safe work practices into all aspects in your day-to-day work.

Using a fun games approach, the goal of this module is to keep you safe and healthy at work by showing you how to:

- use a risk management approach in your day-to-day tasks
- identify and manage risks, hazards and near misses
- what to do when near misses or accidents occur.

## **Mandatory Training Reimagined**

A faster, more engaging way to do mandatory training\*

\*You may be targeted to do this training if you have not completed the course previously.
