

# Caring for people living with younger onset dementia.

This module will help you develop an understanding of how dementia in younger people may present, the associated age-related challenges, and how to utilise tools and resources to improve care. The content supports a consistent application of person centred approaches when providing care.

Real-life videos capture the individual experience of a person living with younger onset dementia.

Interactive content outlines how you can:

- recognise how younger onset dementia may present
- see how younger onset dementia impacts the person and their family/carer
- enable the person living with younger onset dementia to access relevant support and resources.
